

Productivity that's off the charts.

Save IT overhead while providers save 25% or more charting time!

“

If it's deployed and I don't get calls on it, it's the best product ever. ”

— IT Director - Regional Hospital

If you've been underwhelmed by the cost, reliability, and complexity of other speech recognition solutions, consider SayIt™. SayIt offers affordable pricing, unrivaled uptime, AND unparalleled ease of implementation.

Why SayIt? SayIt is incredibly easy to deploy, easy to train, easy to use, and easy to manage – we've even been called “IT's Best Friend.” SayIt is compatible with all major EHRs – no integration required!

SAYIT ADVANTAGES:

Easy, Affordable, Portable, and Friendly:

- SayIt is simple to learn and use: Most providers are productive using SayIt within 30 minutes of being trained.
- With flexible, low cost subscription pricing, SayIt is designed to be affordable for the entire healthcare community.
- SayIt is hosted securely in Amazon Web Services ca-central-1 region.
- One SayIt account works well for both PC and Mac – no need to buy two products!
- SayIt supports all major medical specialties and can be quickly customized with tailored acronyms and taxonomies.
- SayIt also offers a free Wireless Mic app for iPhone or Android.

Reduce Documentation Time and Effort:

- Reduce errors while entering data at 3-4X the speed of typing!
- Improve consistency of clinical documentation by creating detailed narratives quickly and accurately— directly into the system of record!
- Use voice or touch shortcuts to activate EHR macros, insert templates, and navigate system screens.

Optimize your Workflow:

- Complete templates and reports in seconds vs. minutes – using simple voice or touch commands.
- Prefer to have someone else edit your work? With the optional SayIt Transcription Assist service, dictations are edited and posted directly into the system of record.
- Additional computer-assisted coding, documentation and full service transcription capabilities are available through certified SayIt resellers.
